

## **“Voix de femmes”**

**Highlights female composers through the ages; the show tells the story of a woman going through different emotions and states of mind, being joyous, in love, crazy, sad, courageous, devoted.**

**The programme consists of music written by Hildegard von Bingen, Clara Schumann and Fanny Hensel-Mendelssohn, famous Boulanger sisters as well as Juliet and Barbara (contemporary French singers); it also features the music of contemporaries such as Isabelle Aboulker; the duet wishes to awake one's curiosity and invites the listener to discover more about these women.**

**The place occupied by the female composer is a reflection of the society in which she evolves; the story the recital tells, the message it carries, makes it resonate well with the woman of today.**
